STAIRLIFT

CURVED STAIRCASES

Stannah

“500,000 people worldwide have chosen a Stannah stairlift to help them keep their independence”

Stannah. Your first step to freedom

Life is better when you have the energy to do the things you want to do, like enjoying a visit from the grandchildren or entertaining friends. Our experience has taught us that the sooner a stairlift is installed, the sooner you will be able to start appreciating the things you love doing. So, just imagine how a stairlift from Stannah could make your day-to-day life easier, safer and more enjoyable.

The stairlift that's right for you and your home

Stannah know that not all homes are the same. If you think your stairs are unsuitable for a stairlift, we think you might be pleasantly surprised. Our slimline rails and fold-away chair leaves enough space for others to use the staircase and, contrary to belief, our rails are fitted to the staircase and not the wall. This ensures that when you have your Siena stairlift installed by our friendly and professional engineers, it will be quick, easy and carried out with minimal fuss and bother.

Stannah, a company trusted for over 150 years

We are a family-run company and have been for five generations. The current managing directors are the great, great grandchildren of Joseph Stannah, who started the company in the 1860s. His engineering principles and strong family values run as true today as they always have.

Sleek and smooth

Seated with the optional easy-to-use seatbelt on, a gentle touch of the controls is all it takes to climb your stairs.

Neat, elegant and tidy

Our elegant curved rail and fold-away chair design leaves your hallway looking spacious and tidy with plenty of space for other stair-users.

Siena. Exclusively for you

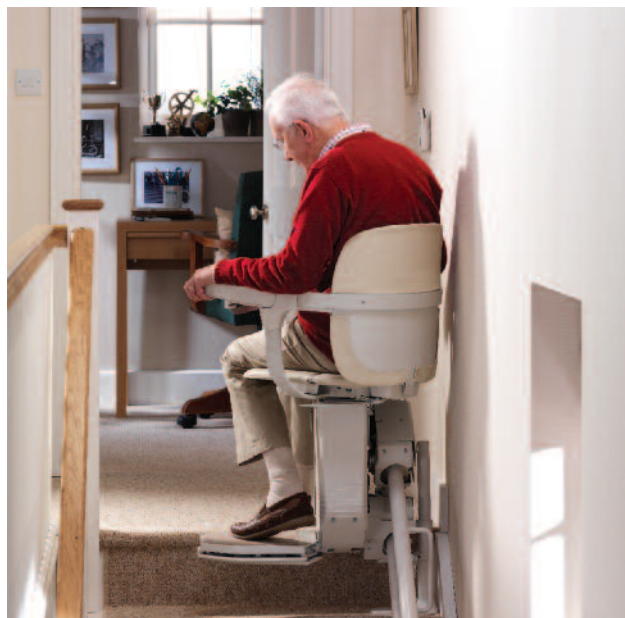

Stannah understand that every curved staircase is different from the next, with its own landings, angles and corners. So we custom-design the curved rail on your Siena, making it to measure so it fits your stairs precisely. Together with your chosen colours on the chair and rail, it all adds up to your perfect stairlift.

Stylish and space-saving

Choose the Siena and you get classic comfort and style in perfect unison. The elegant contours and deeply upholstered chair in a choice of five vinyl colours make it look and feel truly inviting. We have designed the Siena for simplicity and convenience, too. Clip on your optional easy-to-use seatbelt and move the controls to glide up or down your stairs. It has a fold-away function that allows you to fold the chair neatly for extra space. You can even lock your Siena with the removable key to keep it safe from children. For those who have limited strength in their hands, you can also choose an optional one-way powered swivel seat which is designed for narrow hallways, that turns to face your landing, making getting in and out of your Siena easy.

Rails that follow every twist and turn

Your made-to-measure curved rail neatly hugs every corner of your stairs, while its elegant design harmonises with any home. The slimline profile of the rail also leaves space on your stairs for others to safely use them, while its twin-tube design makes it exceptionally strong and stable. The rail is fixed to your stairs rather than the walls. The rail fits to either side of the staircase, depending on space.

Naturally follows every curve

The bespoke Siena rail can be fitted to either side of the staircase - if space allows.

Simple and safe to get on and off

The one-way manual or optional one-way powered swivel seat allows you to get on and off your Siena safely and easily.

“When my Stannah sales advisor measured my staircase he was very thorough”

"The easy to use controls on my Siena can be operated with just a slight touch"

Siena. True comfort and safety in one

We take great care to make your stairlift safe and comfortable. This is why we designed the Siena to include a range of helpful features that make you feel right at home when you use it.

Below are the benefits and features common to the Stannah Siena for curved stairs.

1. Comfortable and stylish chair

The Siena offers true comfort, with a cushioned back and generously upholstered, padded seat available in hard-wearing vinyl upholstery all of which are fire retardant, and available in a choice of five colours to match your décor.

2. Easy-to-use controls

To operate your Siena, gently move the controls in the direction you wish to travel.

3. Folding options (Manual)

Simply fold the arms, then the seat, the footrest is folded using a separate lever. Or choose the optional powered footrest, see point 9.

4. Swivel levers and options

Use the standard manual swivel levers, or optional powered one-way swivel, to get off your stairlift in the safest position at the top of your stairs.

5. Safety edges

Safety sensors around the footrest and carriage automatically detect any obstruction on your stairs, bringing your Siena to a safe and gentle stop.

6. Seatbelt options

The retractable seatbelt as highlighted opposite, can be fastened simply with one hand. A range of other seatbelt designs are available.

7. Arm isolation

This safety system prevents your Siena from moving until the armrest nearest the bottom of the staircase is fully lowered.

8. On-off switch

Clear easy-to-use on and off button.

9. Powered footrest (Optional)

Our powered footrest folds or unfolds independently, ideal for you to enter or exit the chair with the footrest out of the way.

Two chair widths

Two chair widths - a standard arm width and a new XL arm width version tailored to the user and their staircase. (Standard width shown opposite - XL version shown below).

vinyl upholstery

Siena. Your step-by-step guide

We believe a stairlift should go beyond the functional. To us, that means making it beautifully simple to operate.

1. When your Siena is not in use, it folds away giving you more space on your stairs for other users.

2. Once you have unfolded your Siena, make yourself comfortable in the seat.

3. A gentle movement of the controls is all it takes to make your Siena glide effortlessly upstairs or downstairs.

4. When you arrive at the top of the stairs, you can swivel your Siena around so you can get off safely.

5. When not in use your Siena can be left in the swivelled position as a safety barrier, or folded flat against the wall.

6. Using the wall-mounted remote control, you can send and receive your Siena to either end of the stairs.

**"My seatbelt guarantees me
extra peace-of-mind when I'm
travelling on my stairlift"**

“It was really useful to be able to pick the width of the chair that would comfortably fit my stairs”

Siena. Created with you in mind

No two people are ever identical, that's why as well as our standard features we also have a number of optional features which can be tailored to you.

Retractable seat belt (Optional)

Our retractable seat belt is easy to use and can be fastened with one hand.

Two widths of chair

Your Siena chair is available in two different widths, to suit you or your staircase best.

Swivel seat options

There are two swivel options available, manual swivel or one-way powered swivel.

Footrest fold button (Optional)

The one-touch, footrest fold button helps you to raise or lower the footrest independently from the seat.

“It was important for me that my Siena blended in perfectly with my homes décor”

Siena. Tailored just for you

We offer the Siena in a choice of five stylish and durable vinyl colours and six complementary rail colours to match your taste and style.

Pine

Cranberry

Midnight

Walnut

Ivory

Upholstery and rail colours

You are able to choose any of the five upholstery colours with any of the six rail colours to tailor your Siena to what suits your home best.

The upholstery is heavy duty vinyl which is flame retardant and also has antimicrobial protection.

Rail Colours

Standard Finish

Pearl

Optional Finishes

Window Grey

Jet Black

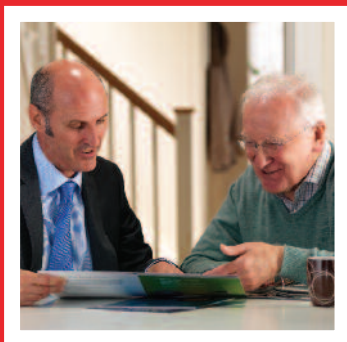

Nut Brown

Ochre Brown

Beige

“How nice it was to find a company more interested in what’s best for me and not just best for them”

Siena. One simple call is all it takes.
